Solara Remote Data Delivery Incorporated Approved as a Vendor to the United Nations

WINNIPEG, MB – 9 August 2010 – Solara Remote Data Delivery Incorporated is very pleased to announce that it has been accepted into the Vendor Roster of the United Nations Procurement Division (UNPD).

Solara has been accepted as a vendor of satellite communications equipment and services and looks forward to the opportunity to serve the UN in this capacity.

The UN vendor selection process is quite detailed, with reviews of company financial data, product quality processes, business ethics, and environmental and personnel policies.

We are very proud of this at Solara, and look forward to opportunities to serve the United Nations and continue to demonstrate our commitment to producing quality products and services in the mobile communications field.

About Solara Remote Data Delivery Incorporated

Solara Remote Data Delivery Incorporated is a communication solutions leader, providing the right balance of tailored technology and client-focused solutions, with expert advice and support. As the designer and manufacturer of the Field Tracker 2000, the Field Tracker 2100, and comprehensive geospatial software solutions, Solara delivers wireless data tools and products that are secure and reliable, made for improved efficiency, profitability and peace of mind.
