

Solara Exhibiting at CANSEC 2010

WINNIPEG, MB - May 14, 2010 - Solara Remote Data Delivery Incorporated will be exhibiting at Canadian Association of Defence and Security Industries (CADSI) CANSEC 2010 Exhibition. A CADSI member, Solara has many clients across Canada at the municipal, provincial and national levels of government. The annual CANSEC exhibition is an excellent opportunity to re-connect with existing clients and introduce our innovative satellite tracking and messaging solutions for applications as diverse forest fire fighting, police operations, scientific field study personnel communications and military "blue force" tracking.

For the latest innovations in portable GPS tracking, please come by and see us at booth number 1901 in the Boeing Hall.

About Solara Remote Data Delivery Incorporated

Solara Remote Data Delivery Incorporated is a communication solutions leader, providing the right balance of tailored technology and client-focused solutions, with expert advice and support. As the designer and manufacturer of the Field Tracker 2000, the Field Tracker 2100, and comprehensive geospatial software solutions, Solara delivers wireless data tools and products that are secure and reliable, made for improved efficiency, profitability and peace of mind.
